

BANBURY Camera Club

2021 to 2022 Season

Founded in 1946, Banbury Camera Club still maintains its original aims—to bring together all those in the Banbury area who are interested in photography. Whatever your standard, equipment or interests, you will be very welcome at our meetings. If you have purchased a new digital camera and are wondering how you can get the best from it, then look no further!

Digital or Film—Home Printing or Minilab

Our members are interested in all forms of photography. While most of us use single lens reflex (DSLR) or compact digital cameras, some members still use film (35mm) medium and large format, and even pinhole cameras. Mobile Phones, and the new mirrorless cameras are coming into usage now too. Most members use home computers to organise and process their images, making their own prints or having them made in minilabs or via on-line producers.

At Chenderit School Arts College

We are very fortunate in having access to excellent facilities for practical photography at Chenderit. There is a superb digital imaging suite with computers (PC and Mac), scanners and a fully equipped darkroom with six enlargers. We have our own Lottery-funded digital projector. Hence the club offers opportunities for individual or group use of the extensive facilities, with experienced members offering advice or support, particularly through our regular practical evenings. So whether it is learning to use your camera, improving your holiday pictures for the family album, producing exhibition prints, photo books or audio visual sequences, or simply enjoying other people's photographs, we hope that Banbury Camera Club has something for you.

Winter and Spring Programmes

From September to May we meet each week at 7.30 p.m. on Monday evenings. The Programme includes:

- ◆ Visiting Speakers and exhibitions;
- ◆ Discussions and advice sessions;
- ◆ Sharing of members' printed and projected images;
- ◆ Competitions for members and with other clubs;
- ◆ Practical sessions including studio work, darkroom and digital imaging demonstrations and tuition and photo appreciation.
